EDUCATION

Simon Fraser University   Burnaby, B.C
Bachelor of Science in Computing Science   *Sep. 2023 – Dec 2027*

EXPERIENCE

Sales Colleague   July 2022 - Sept 2023
JYSK Canada   *Delta, B.C*

- Delivered exceptional customer service by assisting shoppers with product selection and resolving inquiries, contributing to a 15% increase in positive customer feedback.
- Maintained accurate records of inventory and transactions, ensuring seamless store operations and reducing stock discrepancies by 10%.
- Optimized store layout and displays to boost product visibility, resulting in a measurable uplift in monthly sales

PROJECTS

CraveIt | *React, Vite, Tailwind CSS, Node.js, Express.js*   October 2024

- Developed a full-stack application to locate dining options and recipes based on user preferences.
- Designed a responsive, multi-page app with **React** (frontend) and **Node.js/Express.js** (backend), featuring "Eat In" (recipes) and "Eat Out" (restaurants) options.
- Developed **RESTful API** endpoints with **Express.js** to integrate third-party APIs
- Implemented client-side routing with **React Router** to enhance navigation, reducing page load times by 25%.

Personal Portfolio Website | *React, Tailwind CSS, Vite, Email.js*   October 2024

- Developed a responsive portfolio using **React** and **Vite**, featuring smooth page transitions with React Router for intuitive navigation.
- Designed with **Tailwind CSS** for modern, adaptable styling and **Material UI** icons to enhance visual clarity and user experience.
- Integrated **Email.js** on the "Contact Me" page for seamless messaging, with React **Toastify** notifications to confirm message delivery.

Transit Trip Planner | *React, Tailwind CSS, Vite, Google Maps API*   September 2024

- Developed a Transit Trip Planner using **React** and integrated **Google Maps API** to provide users with efficient route options and real-time transit information.
- Implemented interactive map features, allowing users to visualize routes, stops, and estimated travel times, enhancing the overall user experience.
- Managed state and data flow effectively with **React Hooks**, optimizing performance and user interaction.
- Created a responsive design with **Tailwind CSS**, ensuring seamless usability across various devices and screen sizes.

Jobs Application Board | *React, Tailwind CSS, Vite, JSON Server*   September 2024

- Developed a Jobs Board using **React** to allow users to view, add, and edit job postings sourced from a mock **JSON server**.
- Implemented **CRUD** functionality (Create, Read, Update, Delete) for job listings, enhancing user engagement by providing a seamless job management experience.
- Utilized **React Hooks** for state management, optimizing performance and improving user interaction.

TECHNICAL SKILLS

Languages: Python, C/C++, JavaScript, HTML/CSS
Frameworks: React, Node.js, Express.js, Tailwind CSS
Developer Tools: Git/Github, REST API, npm, Figma, Vite, VS Code, Agile, Scrum, Jira, PyCharm, Matlab
Libraries: NumPy, Matplotlib
